#### **BRIEF**

Information Security Architect with experience building, protecting and automating resilient distributed systems.

### **EXPERIENCE**

## Texas Children's Hospital, Houston, TX

October, 2011 - 5/2015

Data Security Architect

Houston, TX

Texas Children's Hospital is a rapidly growing organization with around 12,000 employees. My work involved development of security standards, advising leadership and technical staff on security risks and best practices, planning, building and operating information security and application delivery systems. Also:

- · Served on the "Architectural Review Committee" to approve the design of proposed IT systems, create technical standards and advise policy.
- $\cdot$  Research, evaluate and proposed set
- · Built an application delivery system around F5's BIG-IP technologies using Global and Local Traffic Managers
- · Set up a centralized multi-factor authentication system for websites with a mix of F5's Access Policy Manager (APM) and RSA's Adaptive Authentication.
- · Single Sign On (SSO) to third party applications through F5's SAML-capable authentication federating proxy APM.
- $\cdot$  Protected web applications through F5's Applications Security Manager a web application firewall, SourceFire NGIPS IPS
- · Mitigated DDOS attacks through a combination of ISP peering via BGP and Arbor's Pravail APS a DDOS protection suite.
- · Developed baseline security configurations for common OS's and applications on NIST and CIS Benchmarks.
- · Configured Symantec's Control & Compliance Suite (CCS) to audit system compliance to configuration standards.
- · Integrated Symantec's CCS with Symantec's Data Leak Protection, Endpoint Protection, and Rapid7's Nexpose vulnerability scan results for a more meaningful assessment of a system's risk.
- · Ran popular security tools including Checkpoint and Cisco firewalls, BlueCoat forward proxies, and RADIUS AAA servers.

### Texas Children's Hospital, Houston, TX

May, 2011 - October, 2011

Enterprise Systems Engineer - Contract

Houston, TX

- · Worked on improving Microsoft Active Directory Services, PKI, and Microsoft Exchange systems.
- $\cdot$  Integrated Wifi authentication with Active Directory through RADIUS & 802.1x capable APs
- · Automated common administrative tasks through vbscript and powershell scripts.

Alvarez & Marsal

February, 2007 - November, 2010 New York, NY

System Engineer

At this global professional services firm, I was the lead for Microsoft Active Directory, Exchange, ISA and Windows Server platforms. I also:Created detailed continuity and disaster recovery plans, for messaging, DNS and web services. Minimized disaster recovery times by integrating VMWare's Site Recovery Manager with EMC Clariion snapshot and mirroring services. Managed encryption tools: PGP, Bitlocker, EFS, and Safend. Built data center storage systems for Exchange, VMWare, file share, and backup around EMC Clariion Built branch office storage systems around FreeNAS, and HP Storageworks.

### Katzenbach Partners LLC

Systems & Networking Lead

December, 2002 - September, 2006 New York, NY

As the technical lead at this management consulting firm, I deployed a majority of systems and networks. Designed a highly available, multi-office WAN through dedicated inter-office frame relay links, backed by IPSec VPNs over the Internet. Designed a multi-homed data center by way of BGP-peering with two ISPs Built a multi-site WLAN around Cisco APs and Active Directory-based authentication. Automated desktop deployment using Microsoft's Remote Installation Server and distributed filesystem storage. Led two Active Directory and Exchange upgrades, and worked with consultants to build an Exchange-integrated Avaya VoIP system. Secured systems, firewalls, and networking equipment using NSA, NIST, and vendor guidelines. Managed SonicWall/NetStructure, and Cisco firewalls. Set up detailed network monitoring by displaying WMI, WBEM, SNMP counters and alerts in a WhatsUp Gold console.

Comtex (Spherion)

Desktop, Server Support

1997 - 2001

New York, NY

**CERTIFICATIONS** 

CISSP #394506

**EDUCATION** 

Brooklyn College, CUNY

B.S. in Computer Science (Incomplete)

June 2001

### TECHNICAL STRENGTHS

Systems & Tools Load Balancers and Proxies; RSA's Adaptive Authentication

Nexpose; Firewalls; Nmap; Wireshark; Windows & Linux

Scripting & API's PowerShell; Bash

GRC ITIL; PCI; HIPAA; NIST; Risk Assessment; Vulnerability Assessment

Policy Development; Compliance Assessment; System Baseline standards
